VOLUME 90 PART 4 AUGUST 1988

Commentary	
Watt, F. M. Keratinocyte cultures: an experimental model for studying how proliferation and terminal differentiation are co-ordinated in the epidermis	525
Andersson Forsman, C. and Pinto da Silva, P. Fracture-flip: new high-resolution images of cell surfaces after carbon stabilization of freeze-fractured membranes	531
Gautier, J., Pal, J. K., Grossi de Sa, M.-F., Beetschen, J. C. and Scherrer, K. Differential cytolocalization of prosomes in axolotl during oogenesis and meiotic maturation	543
Pal, J. K., Gounon, P., Grossi de Sa, M.-F. and Scherrer, K. Presence and distribution of specific prosome antigens change as a function of embryonic development and tissue-type differentiation in <i>Pleurodeles waltl</i>	555
Corsi, A., Granata, A. L., Vecchi, C., Strabbioli, R. and Re, L. Variation in thin filament size in the skeletal muscle of the frog	569
Sasse, R. and Gull, K. Tubulin post-translational modifications and the construction of microtubular organelles in <i>Trypanosoma brucei</i>	577
Musk, S. R. R., Downes, C. S. and Johnson, R. T. Caffeine induces uncoordinated expression of cell cycle functions after ultraviolet irradiation. Accelerated cycle transit, sister chromatid exchanges and premature chromosome condensation in a transformed Indian muntjac cell line	591
Brooks, R. F. and Riddle, P. N. The 3T3 cell cycle at low proliferation rates	601
Larsson, O. The role of HMG CoA reductase and dolichol synthesis in the control of 3T6 cell proliferation: effects of cell crowding, serum depletion and addition of epidermal growth factor	613
Waitz and Loidl, P. <i>In situ</i> preparation of the nuclear matrix of <i>Physarum polycephalum</i> : ultrastructural and biochemical analysis of different matrix isolation procedures	621
Raman, R., Singh, A. P. and Nanda, I. DNase I nick translation <i>in situ</i> on meiotic chromosomes of the mouse, <i>Mus musculus</i>	629
Poole, C. A., Ayad, S. and Schofield, J. R. Chondrons from articular cartilage: I. Immunolocalization of type VI collagen in the pericellular capsule of isolated canine tibial chondrons	635
Wilkinson, P. C., Lackie, J. M., Haston, W. S. and Islam, L. N. Effects of phorbol esters on shape and locomotion of human blood lymphocytes	645
Zimmermann, A., Gehr, P. and Keller, H. U. Diacylglycerol-induced shape changes, movements and altered F-actin distribution in human neutrophils	657
Wood, A. Contact guidance on microfabricated substrata: the response of teleost fin mesenchyme cells to repeating topographical patterns	667
Kimura, A., Kawaguchi, T., Onon, T., Sakuma, A., Yokoya, Y., Koch, H. and Nakamura, K. Cell surface heparan sulphate and adhesive property of sublines or rat ascites hepatoma AH7974	683
Coukell, M. B. and Cameron, A. M. Effects of suboptimal levels of extracellular calcium on the regulation of the cyclic AMP phosphodiesterase-inhibitor system and membrane differentiation in <i>Dictyostelium discoideum</i>	691
Ludérus, M. E. E., Reymond, C. D., Van Haastert, P. J. M. and Van Driel, R. Expression of a mutated <i>ras</i> gene in <i>Dictyostelium discoideum</i> alters the binding of cyclic AMP to its chemotactic receptor	701
Nilsson, J. R. Cytotoxic effects of cisplatin, <i>cis</i> -dichlorodiammine-platinum(II), on <i>Tetrahymena</i>	707
Goodenough, U. W. and Heuser, J. E. Molecular organization of cell-wall crystals from <i>Chlamydomonas reinhardtii</i> and <i>Volvox carteri</i>	717
Goodenough, U. W. and Heuser, J. E. Molecular organization of the cell-wall and cell-wall crystals from <i>Chlamydomonas eugamatos</i>	735
Index of Authors	751
Index of Subjects	755
