VOLUME 91 PART 2 OCTOBER 1988

<hr/>	
Commentary	
Bohr, V. A. DNA repair and transcriptional activity in genes	175
<hr/>	
Sung, K.-L. P., Sung, L. A., Crimmins, M., Burakoff, S. J. and Chien, S. Dynamic changes in viscoelastic properties in cytotoxic T-lymphocyte-mediated killing	179
Fok, A. K., Olegario, R. P., Ueno, M. S. and Allen, R. D. Characterization of monoclonal antibodies to trichocyst antigens in <i>Paramecium</i>	191
Bergman, M. G., Wawra, E. and Winge, M. Chicken histone H5 inhibits transcription and replication when introduced into proliferating cells by microinjection	201
Barton, R. and Gull, K. Variation in cytoplasmic microtubule organization and spindle length between the two forms of the dimorphic fungus <i>Candida albicans</i>	211
Wilkinson, M. M., Busuttill, A., Hayward, C., Brock, D. J. H., Dorin, J. R. and Van Heyningen, V. Expression pattern of two related cystic fibrosis-associated calcium-binding proteins in normal and abnormal tissues	221
Morgan, D. M. L., Clover, J. and Pearson, J. D. Effects of synthetic polycations on leucine incorporation, lactate dehydrogenase release, and morphology of human umbilical vein endothelial cells	231
Heyworth, C. M., Ponting, I. L. O. and Dexter, T. M. The response of haemopoietic cells to growth factors: developmental implications of synergistic interactions	239
Brownlee, C. and Pulsford, A. L. Visualization of the cytoplasmic Ca ²⁺ gradient in <i>Fucus serratus</i> rhizoids: correlation with cell ultrastructure and polarity	249
Szöllösi, M. S. and Szöllösi, D. 'Blebbing' of the nuclear envelope of mouse zygotes, early embryos and hybrid cells	257
Owens, N. F., Gingell, D. and Trommler, A. Cell adhesion to hydroxyl groups of a monolayer film	269
Copeman, M. C. and Harris, H. The extracellular matrix of hybrids between melanoma cells and normal fibroblasts	281
Snaar-Jagalska, B. E. and Van Haastert, P. J. M. <i>Dictyostelium discoideum</i> mutant <i>synag 7</i> with altered G-protein adenylate-cyclase interaction	287
Okuda, A. and Kimura, G. Non-specific elongation of cell cycle phases by cycloheximide in rat 3Y1 cells, and specific reduction of G ₁ phase elongation by simian virus 40 large T antigen	295
McKechnie, N. M., Boulton, M., Robey, H. L., Savage, F. J. and Grierson, I. The cytoskeletal elements of human retinal pigment epithelium: <i>in vitro</i> and <i>in vivo</i>	303
Lombardi, T., Montesano, R., Furie, M. B., Silverstein, S. C. and Orci, L. <i>In vitro</i> modulation of endothelial fenestrae: opposing effects of retinoic acid and transforming growth factor β	313
