VOLUME 98 PART 1 JANUARY 1991

Commentary Vasiliev, J. M. Polarization of pseudopodial activities: cytoskeletal mechanisms	1	Zurzolo, C., Gentile, R., Mascia, A., Garbi, C., Polistina, C., Aloj, L., Avvedimento, V. E. and Nitsch, L. The polarized epithelial phenotype is dominant in hybrids between polarized and unpolarized rat thyroid cell lines	65
Sugrue, P., Avolio, J., Satir, P. and Holwill, M. E. J. Computer modelling of <i>Tetrahymena</i> axonemes at macromolecular resolution: interpretation of electron micrographs	5	Reynolds, A. J., Oliver, R. F. and Jahoda, C. A. B. Dermal cell populations show variable competence in epidermal cell support: stimulatory effects of hair papilla cells	75
Burgess, S. A., Dover, S. D. and Woolley, D. M. Architecture of the outer dynein arm ATPase in an avian sperm flagellum, with further evidence for the B-link	17	Coleman, L. and Harris, A. Immortalization of male genital duct epithelium: an assay system for the cystic fibrosis gene	85
Chapin, S. J. and Bulinski, J. C. Non-neuronal $210 \times 10^3 M_r$ microtubule-associated protein (MAP4) contains a domain homologous to the microtubule-binding domains of neuronal MAP2 and tau	27	Honda, A., Noguchi, N., Takehara, H., Ohashi, Y., Asuwa, N. and Mori, Y. Cooperative enhancement of hyaluronic acid synthesis by combined use of IGF-I and EGF, and inhibition by tyrosine kinase inhibitor genistein, in cultured mesothelial cells from rabbit pericardial cavity	93
Joswig, G., Petzelt, C. and Werner, D. Murine cDNAs coding for the centrosomal antigen centrosomin A	37	Hernandez-Verdun, D., Robert-Nicoud, M., Geraud, G. and Masson, C. Behaviour of nucleolar proteins in nuclei lacking ribosomal genes. A study by confocal laser scanning microscopy	101
Bartles, J. R., Rao, M. S., Zhang, L., Fayos, B. E., Nehme, C. L. and Reddy, J. K. Expression and compartmentalization of integral plasma membrane proteins by hepatocytes and their progenitors in the rat pancreas	45	Wang, X. and Traub, P. Resinless section immunogold electron microscopy of karyo-cytoskeletal frameworks of eukaryotic cells cultured <i>in vitro</i> . Absence of a salt-stable nuclear matrix from mouse plasmacytoma MPC-11 cells	109
Stearns, M. E., Wang, M. and Sousa, O. Evidence that estramustine binds MAP-1A to inhibit type IV collagenase secretion	55	Symington, A. L., Zimmerman, S., Stein, J., Stein, G. and Zimmerman, A. M. Hydrostatic pressure influences histone mRNA	125
