

# CONTENTS

## CONTENTS OF No. 337. NEW SERIES.

| MEMOIRS:  | PAGE |
|---|------|
| The Structure and Chemical Composition of the Golgi Element. By JOHN R. BAKER, M.A., D.Sc. With Plates 1 and 2 and 7 Text-figures     | 1    |
| On the Constitution of the Maxillae and Labium in Mecoptera and Diptera. By A. D. IMMS, F.R.S. With 12 Text-figures                   | 73   |
| The Golgi Element in the Cells of the First and Second Convoluted Tubules of the Cat Kidney. By J. F. A. McMANUS. With 5 Text-figures | 97   |

## CONTENTS OF Nos. 338-9. NEW SERIES.

| MEMOIRS:  |     |
|---|-----|
| The Meiotic Phase of <i>Calandra oryzae</i> . By MARY M. GUNSON. With Plate 3   | 107 |
| Structure and Osmiophilic Inclusions of <i>Astasia harrisii</i> . By J. D. SMYTH. With Plates 4 and 5 and 1 Text-figure   | 117 |
| Development of the Mesonephros in a Teleostean— <i>Thynnichthys sandkhol</i> . By M. A. MOCHE. With Plate 6 and 10 Text-figures   | 129 |
| Formation and Nature of the Opercular Chaetae of <i>Sabellaria alveolata</i> . By F. J. EBLING. With 13 Text-figures  | 153 |
| Studies on the Structure, Development, and Physiology of the Nephridia of Oligochaeta. Part V. The Enteronephric System in <i>Megascolex ceylonicus</i> and <i>Megascolex sarasinorum</i> , with remarks on the Phagocytic Organs in <i>Megascolex templetonianus</i> . By KARM NARAYAN BAHL. With 5 Text-figures | 177 |
| The Post-embryonic Development of <i>Hanseniella agilis</i> (Symphyla). By O. W. TIEGS, F.R.S. With Plates 7 to 12 and 29 Text-figures  | 191 |

## CONTENTS OF No. 340. NEW SERIES.

| MEMOIRS:   |     |
|--|-----|
| Morphology of the Osmiophil Material of <i>Rhabdomonas costata</i> , and its behaviour during division. By J. D. SMYTH. With 10 Text-figures   | 329 |
| Studies on the Structure, Development, and Physiology of the Nephridia of Oligochaeta. VI. The Physiology of Excretion and the Significance of the Enteronephric Type of Nephridial System in Indian Earthworms. By KARM NARAYAN BAHL. With 7 Text-figures and 11 Tables | 343 |
| The Supposed Pancreatic Organs of <i>Petromyzon fluviatilis</i> and <i>Myxine glutinosa</i> . By E. J. W. BARRINGTON. With 16 Text-figures   | 391 |
