VOLUME 88 PART 1 AUGUST 1987

<hr/>	
Commentaries	
<b>Dexter, T. M.</b>	
Growth factors involved in haemopoiesis	1
<b>Macgregor, H. C.</b>	
Lampbrush chromosomes	7
Book Reviews	
<b>Skerrow, C. J.</b>	11
<b>Dunn, G. A.</b>	11
<hr/>	
<b>Wheatley, D. N., Inglis, M. S., Foster, M. A. and Rimington, J. E.</b>	
Hydration, volume changes and nuclear magnetic resonance proton relaxation times of HeLa S-3 cells in <i>M</i> -phase and the subsequent cell cycle	13
<b>Kronebusch, P. J. and Singer, S. J.</b>	
The microtubule-organizing complex and the Golgi apparatus are co-localized around the entire nuclear envelope of interphase cardiac myocytes	25
<b>Coleman, J., Evans, D., Hawes, C., Horsley, D. and Cole, L.</b>	
Structure and molecular organization of higher plant coated vesicles	35
<b>Hünseler, P., Scheidgen-Kleyboldt, G. and Tiedtke, A.</b>	
Isolation and characterization of a mutant of <i>Tetrahymena thermophila</i> blocked in secretion of lysosomal enzymes	47
<b>Schofield, P. N., Engstrom, W., Lee, A. J., Biddle, C. and Graham, C. F.</b>	
Expression of <i>c-myc</i> during differentiation of the human teratocarcinoma cell line Tera-2	57
<b>Littlewood, T. D., Hancock, D. C. and Evan, G. I.</b>	
Characterization of a heat shock-induced insoluble complex in the nuclei of cells	65
<b>Hola, M. and Riley, P. A.</b>	
The relative significance of growth rate and inter-division time in the size control of cultured mammalian epithelial cells	73
<b>Pacaud, M. and Harricane, M. C.</b>	
Calcium control of macrophage cytoplasmic gelation: evidence for the involvement of the 70 000 <i>M<sub>r</sub></i> actin-bundling protein	81
<b>Mogensen, M. M. and Tucker, J. B.</b>	
Evidence for microtubule nucleation at plasma membrane-associated sites in <i>Drosophila</i>	95
<b>Takeuchi, S.</b>	
The rearrangement of cytoskeletal systems in epithelial cells accompanying the transition from a stationary to a motile state at the start of epithelial spreading	109
<b>Butler, R. D. and McCrohan, C. R.</b>	
Stimulus-response coupling in the contraction of tentacles of the suctorian protozoan <i>Heliophrya erhardi</i>	121
<b>Takagi, Y., Nobuoka, T. and Doi, M.</b>	
Clonal lifespan of <i>Paramecium tetraurelia</i> : effect of selection on its extension and use of fissions for its determination	129
<b>Announcements</b>
