There was an error published in *J. Cell Sci.* **125**, 5937–5943.

In Fig. 4B the same image was inadvertently presented as the *xy* section (top panels) of syntaxin 4 staining in MDCK wild-type and MDCK μ 1A-KD cells. In the correct version (shown below), the appropriate *xy* image for μ 1A-KD (top panel, middle) matches the corresponding *xz* panel (bottom panel) that was part of the original figure.

The mistake in the figure did not affect the conclusions of the paper.

The correct Fig. 4B is shown below.

The authors apologise for this mistake.
