

## CONTENTS VOLUME 42 APRIL 1980

- page 1 LITMAN, D., HSU, C. J. and MARCHESI, V. T. Evidence that spectrin binds to macromolecular complexes on the inner surface of the red cell membrane
- 23 NATHANIEL, D. R. Paracrystalline arrays in atypical cristae and mitochondrial division
- 33 TONOSAKI, A., WASHIOKA, H., YAMASAKI, M. and MIZOGUCHI, J. Double-replica topography of disk membrane structures in the carp (*Cyprinus carpio*)
- 43 GREEN, C. R. and FLOWER, N. E. Two new septate junctions in the phylum Coelenterata
- 61 SUZAKI, T., SHIGENAKA, Y., WATANABE, S. and TOYOHARA, A. Food capture and ingestion in the large heliozoan, *Echinospaerium nucleoflum*
- 81 IZZARD, C. S. and LOCHNER, L. R. Formation of cell-to-substrate contacts during fibroblast motility: an interference-reflexion study
- 117 JONASSON, J., SANTESSON, B. and STRÖM, A. Analysis of sister-chromatid exchanges and tumorigenicity in cell hybrids
- 127 WILSON, R. E., SWIFT, H. and CHIANG, K.-S. Pigment mutants of *Chlamydomonas* with deformed plastids and increased levels of chloroplast nucleic acids
- 153 KNUUTTON, S. and BÄCHI, T. The role of cell swelling and haemolysis in Sendai virus-induced cell fusion and in the diffusion of incorporated viral antigens
- 169 MASTROMARINO, P., NERI, G., SERRA, A. and WALBORG, E. F. JR. Role of cell surface receptor mobility in Concanavalin A-induced agglutination of Novikoff hepatoma and normal rat liver cells
- 183 SAHU, S. C., TANSWELL, A. K. & LYNN, W. S. Isolation and characterization of glycosaminoglycans secreted by human foetal lung Type II pneumocytes in culture
- 189 TAMM, S. and TAMM, S. L. Origin and development of free kinetosomes in the flagellates *Deltotrichonympha* and *Koruga*
- 207 DENTLER, W. L. Structures linking the tips of ciliary and flagellar microtubules to the membrane
- 221 FRIEDLÄNDER, M. The sperm centriole persists during early egg cleavage in the insect *Chrysopa carnea* (Neuroptera, Chrysopidae)
- 227 DUVERT, M., GROS, D. and SALAT, C. Junctional complexes in the intestine of *Sagitta setosa* (Chaetognatha): the paired septate junction
- 247 AUFDERHEIDE, K. J. Mitochondrial associations with specific microtubular components of the cortex of *Tetrahymena thermophila*. II. Response of the mitochondrial pattern to changes in the microtubule pattern
- 261 BROWER, D. L. and MCINTOSH, J. R. The effects of applied electric fields on *Micrasterias*. I. Morphogenesis and the pattern of cell wall deposition
- 279 BROWER, D. L. and GIDDINGS, T. H. The effects of applied electric fields on *Micrasterias*. II. The distributions of cytoplasmic and plasma membrane components
- 291 ADOLPH, K. W. Organization of chromosomes in HeLa cells: isolation of histone-depleted nuclei and nuclear scaffolds
- 305 PUVION-DUTILLEUL, F. and PUVION, E. New aspects of intranuclear structures following partial decondensation of chromatin: a cytochemical and high-resolution autoradiographical study
- 323 VAN KOOIJ, R. J. and POORT, C. Secretion of newly synthesized proteins by isolated liver cells
- 329 WALKER, G. M. and DUFFUS, J. H. Magnesium ions and the control of the cell cycle in yeast
- 357 GERSHEY, E. L. and D'ALISA, R. M. Characterization of a CV-1 cell cycle. II. The role of cell-substrate attachment

- 367 THORNE, K. J. I., OLIVER, R. C. and GLAUERT, A. M. Eosinophil interaction with antibody-coated, non-phagocytosable surfaces: changes in cell surface proteins
- 379 DZIEZANOWSKI, M. A., DEStEFANO, M. J. and RABINOVITCH, M. Effect of anti-tubulins on spontaneous and chemotactic migration of neutrophils under agarose
- 389 WILKINSON, M. J. and NORTHCOTE, D. H. A reliable method for obtaining matched replicas of freeze-fractured cell suspensions
- 401 WILKINSON, M. J. and NORTHCOTE, D. H. Plasma membrane ultrastructure during plant protoplast plasmolysis, isolation and wall regeneration: a freeze-fracture study
- 417 STEAD, A. D., ROBERTS, I. N. and DICKINSON, H. G. Pollen-stigma interaction in *Brassica oleracea*: the role of stigmatic proteins in pollen grain adhesion
