

Figure S1. No effect of Ptp4E[1] on type III boutons. A. Pseudo-color images showing similar Dilp2-GFP levels in type III boutons on muscle 12 of control (w1118) and Ptp4E[1] animals. Bar, 2 μ m. B. Quantification of fluorescence in boutons and transport DCVs between boutons in control (w1118) and Ptp4E[1] animals. N=15 for each bar.
